VISION & MISSION

Pacific School of Design has been established in the year 2023 with the mission to nurture design sensitive graduates with design thinking and problem solving skills. Our focus is on nurturing practical hands on learning, digital and problem solving skills. The campus building has all the equipment necessary to inspire and facilitate the correct work ethics. The labs and workshops are equipped with the latest softwares and machines that are used in day to day academics. The serene green campus is an avenue for students and faculty members to assemble after classes and have discussions on various topics. Hygienic mess and separate hostels for boys and girls along with stringent security system provide a homelike environment.
